FORMAT & TESTING SYLLABUS

The examination will be conducted by a high quality senior panel of no less than 3 x Eighth Dan Grand Masters leading the proceedings.

All candidates will receive a thorough and fair assessment of their abilities as demonstrated on the day.

The syllabus and expectation for each grade is set out on the following pages and all candidates will be expected to perform the minimum criteria as standard.

The panel may ask candidates to perform additional material from the syllabus if further assessment is required.

05

AGE & MEDICAL CONDITIONS

A candidates age will be taken into consideration by the panel, and the range or number of minimum exercises to be reduced at the panels discretion.

Short-term injuries and health issues

If a candidate suffers from a short-term injury or health issue, the panel respectfully suggest that the candidate waits until the condition is no longer an issue to them and applies for promotion at a later test date. This will allow the panel to give a fair test and a fair result.

Long-term health problems or life-time issues

In cases where a candidate suffers from a long-term injury or a life-time health issue (physical or mental) then the candidate must submit:

- Doctors or consultants statement setting out the nature of the candidate's permanent condition and effect on their day to day life and sporting activity.
- A note from their Instructor/Coach explaining the issue in layman's terms and how they overcome these issues in training and the class environment.

The panel will then take these into consideration in order to provide a fair and appropriate assessment and experience for the candidate.

Candidates will be informed in advance of the grading, of the assessment requirements.
